**Improving Government Regulations;  
Unified Agenda of Federal Regulatory  
and Deregulatory Actions****AGENCY:** Department of Defense (DoD).**ACTION:** Semiannual regulatory agenda.

**SUMMARY:** The Department of Defense (DoD) is publishing this semiannual agenda of regulatory documents, including those that are procurement-related, for public information and comments under E.O. 12866 "Regulatory Planning and Review" and section 25 of the Office of Federal Procurement Policy Act of 1988 (41 U.S.C. 421(g)). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12866, the Federal Procurement Policy Act, and other regulatory guidance. It contains DoD issuances initiated by DoD components that may have economic and environmental impact on State, local, or tribal interests under the criteria of E.O. 12866. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

The agenda portion of this document updates the report published on November 1, 1996, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items included herein will also be used by the Office of Federal Procurement Policy to publish the "Procurement Regulatory Activity Report" required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda and annual regulatory plan are scheduled to be published in October 1997. In addition to this agenda, DoD components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

For specific agenda items, contact the appropriate individual indicated in each DoD component report.

**SUPPLEMENTARY INFORMATION:** This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions is composed of the regulatory status reports, including procurement-related regulatory status reports, from the Office of the Secretary of Defense (OSD) and the Departments of the Army, Navy, and Air Force. Included also is the regulatory status report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12866 and involve water resource projects and regulation of activities in waters of the United States.

DoD issuances range from DoD directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement directives). The OSD agenda section contains the primary directives under which DoD components promulgate their implementing regulations.

To ease identification and to differentiate among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes component level of authority and type of issuance, in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12866, continues to be the DoD single-source reporting vehicle, which identifies issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, DoD components will identify those rules which come under the criteria of the:

- a. Regulatory Flexibility Act;
- b. Paperwork Reduction Act of 1995;
- c. Office of Federal Procurement Policy Act Amendments of 1988.

Those DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the regulatory status reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

Although not a regulatory agency, DoD will continue to participate in

## DOD

regulatory initiatives designed to reduce economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD component representatives identified herein. Although sensitive to the needs of the

public, as well as regulatory reform, DoD reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission. The publishing of this agenda does not waive the applicability of the military affairs exemption in

section 553 of title 5 and section 3 of E.O. 12866.

**Dated:** February 27, 1997.

DEPARTMENT OF DEFENSE (DOD) Proposed Rule Stage  
U.S. Army Corps of Engineers (COE)

**794. REGULATORY PROGRAMS OF THE CORPS OF ENGINEERS**  
**Priority:** Routine and Frequent  
**Reinventing Government:** This rulemaking is part of the Reinventing Government effort. It will revise text in the CFR to reduce burden or duplication, or streamline requirements.  
**Legal Authority:** 33 USC 401; 33 USC 403; 33 USC 1344; 33 USC 1413  
**CFR Citation:** 33 CFR 320 to 330  
**Legal Deadline:** None

**Abstract:** The Corps of Engineers intends to make numerous clarifications to its existing regulations at 33 CFR 320 to 330, to consolidate all permit regulations into one document, and to reorganize 33 CFR 325 for clarity. Since the Corps Regulatory Program final regulations were published in the Federal Register on November 13, 1986 (51 CFR 41206), there has been need to clarify several of those provisions. Since 1986, the Corps has adopted two new appendices at 33 CFR 325, appendices B and C, and the Corps has also adopted

revisions to the Nationwide Permit Program (33 CFR 330), Class 1 Administrative Civil Penalties (33 CFR 326), and revisions to the definition of discharge of Dredged Material and Fill Material and prior converted croplands. For clarity, the Corps intends to consolidate all these changes into one document.
